

DESIGNED AND MADE IN SWEDEN

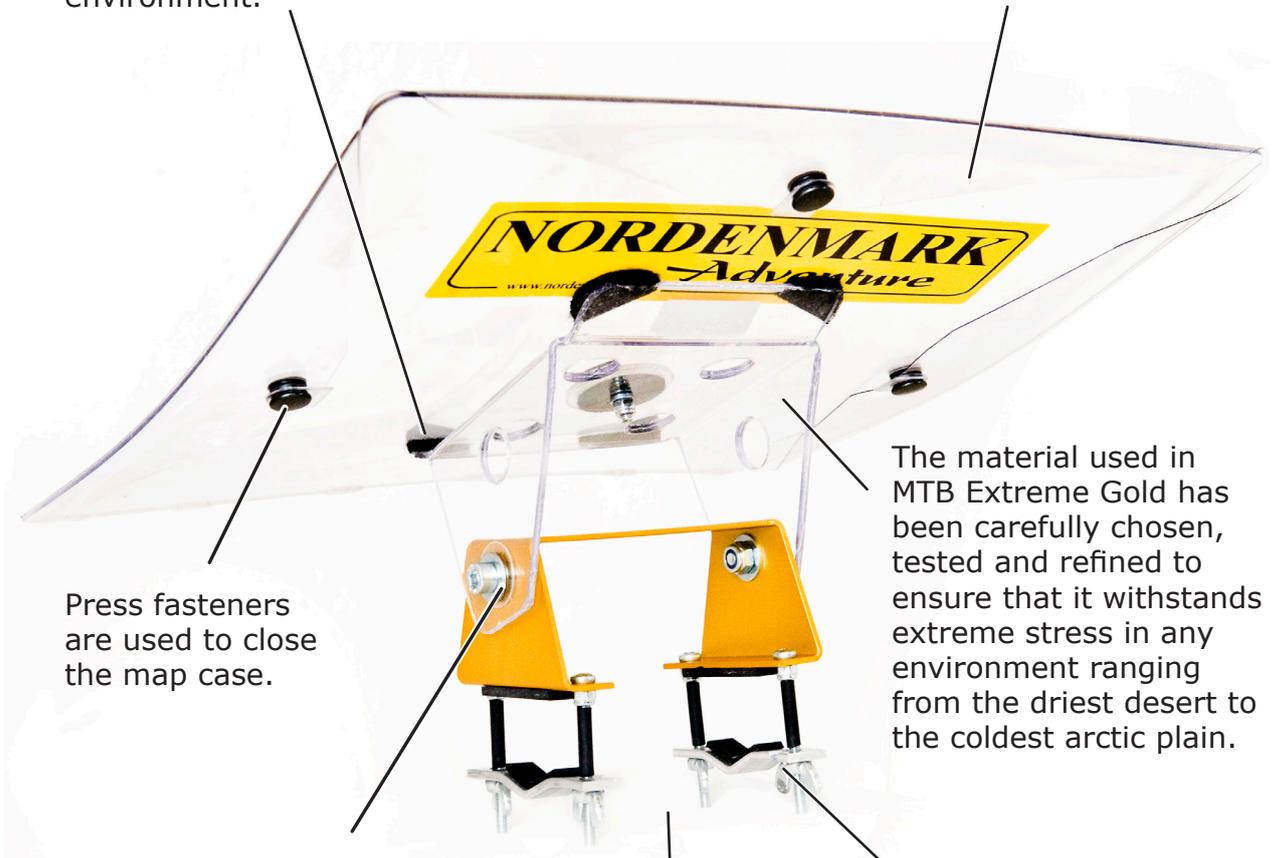

Mountain bike map holder

ROBUST, LIGHTWEIGHT AND FLEXIBLE MAP HOLDER FOR ATHLETES DEMANDING THE BEST PERFORMANCE.
REFINE BY EXPERTS AT CHALMERS UNIVERSITY OF TECHNOLOGY AND FOREFRONT ATHLETES.

MTB EXTREME GOLD

The ingeniously designed map holder efficiently absorbs vibrations from the bike motion, ensuring that the map can be easily read (and manoeuvred) in any situation and in any environment.

360° turnable map case. You can choose size for best individual use:
A4 Plastic 225 x 305 mm (150 g)
XL Plastic 305 x 305 mm (232 g)
XL+ Carbon 310 x 350 mm (250 g)
A3 Carbon 310 x 426 mm (335 g)

Press fasteners are used to close the map case.

Flexible mounting bracket ensuring easy installation on any handlebar. Unique adjustments for best individual use.

The material used in MTB Extreme Gold has been carefully chosen, tested and refined to ensure that it withstands extreme stress in any environment ranging from the driest desert to the coldest arctic plain.

New and easier way of mounting and dismounting the map holder. No tools needed.

Weight map holder: 200 g.
